(ANNUAL BULLETIN, JANUARY-DECEMBER, 2018)

DIBRUGARH H.S. KANOO COLLEGE

Principal's Desk—

Need to reform the Education System

Dr. S. K. Saikia

Principal
DHSK College, Dibrugarh

The present world is globally advancing with the advent of science and technology. With the developing world the need and criteria for mass absorption changes thus changing the skill sets and knowledge required for the jobs of the future. The future job market will be radically different, almost alien, to what we have now. There are waves of forces that will significantly change the way we work and the type of jobs we hold today. The rapid growth of sophisticated technology, global connectedness and a confluence of other factors will make the workforce of the future almost unrecognizable. Present trends include artificial intelligence, robotics, technology, an aging population, globalization, college, politics and the environment. Eventually artificial intelligence, robotics and technology of every sort will displace millions of workers of the world with advancements in medicine, better living conditions, along with a more informed public about nutrition, exercise and diets, people will live much longer in the near future. Thus it seems that the future of doctors is quite bleak. According to researchers within 15-20 years our society will experience a vast change replacing doctors, lawyers, accountants, receptionists etc. Future generations will see the advent of jobs like Organ or Limb Creator, Alternative Energy Consultant, Earthquake Forecaster and what not. This future job market has already sown its seeds as example can be given about big companies like Amazon, Uber, Airbnb, etc. Amazon is working all over the world without having any retail stores. Airbnb, a global hotel business, does not own any hotels or BnB's. Ola and Uber are the major transportation companies without owning any cars or taxis. Many more examples can be taken in this regard. Here mention can be made about driverless cars, Humanoids, robot controlled industries, companies working with Artificial intelligence to interpret X-rays, MRI's etc. to replace the present day Radiologists.

The future job market demands a lot of potential and extraordinary skills. And the conventional methods, curriculum our colleges and universities have, does not wholly provide our students to face such a massive platform. The periodic courses are not enough to absorb the future generation with employment. So measures should be taken and new and improved courses should be included to prepare our students to face the changing world. It is matter of shame that most of us are not yet well aware of this developing world. Lack of research and analysis among our people have caused this problem. But better late than never. We must start to think outside the box and adopt the advanced techniques of the growing world and most prominently bring changes to our traditional methods of learning or else the grim problem of unemployment will accelerate.

Editorial

At the very outset I would like to offer my thankfulness for your appreciations and criticisms for the last issue of the College Bulletin. As appreciation goes a long way as a motivator, justified and constructive criticism is very much required to move to the next level. So we hope that this volume of the Bulletin with your valuable suggestions and feedbacks will definitely move a step forward in the path of success.

This volume of the Bulletin will try to reflect the multidimensional activities of the College fraternity and the students in academic, co-curricular as well as research and developmental activities from January to December 2018 as it has been decided to make it an annual exercise from this year.

The Editorial Board is thankful to the Principal for his support and encouragement and to the teaching and non-teaching staff and the students who have extended their help directly or indirectly in furnishing the resources. Hope the Bulletin succeeds in providing a justified image of the College community.

On behalf of the Editorial Board.

Meetali Chaliha.

Associate Professor
Dept. of Geography, DHSK College

OUR HEARTY CONGRATULATIONS TO

Mr. Narendra Mahela, Associate Prof, Department of Geography, on his new role as the Vice Principal (Administration) of this prestigious institution.

The IQAC has been an integral part of DHSK College which works towards realizing the goals of quality enhancement by developing a system for conscious, consistent and catalytic improvement in different aspects of functioning of the college. After assuming the charge of coordinator of IQAC, myself together with the joint coordinators, Dr. N. Ahmed, Dr. A.P. Bhuyan and Dr. D. Gogoi and other IQAC members worked continuously. As the Coordinator of the IQAC, I am involved in all major committees associated with academic, administrative and student centric procedures. Preparing Annual Reports for the year 2016-17 and AQAR 2016-17, AISHE report for the year 2016-17 and 2017-18, two Annual Reports for the year 2016-17 and 2017-18 (submitted to Dibrugarh University), participating in NIRF 2019, AISHE and all other quality audit process are some of the few activities regularly undertaken. The Cell documents and reports various activities of the college. In the year 2018, we requested the Dibrugarh University for a panel of Evaluators for Academic and Administrative Audit of DHSK College. The Panel has communicated with us and we will conduct the Audit shortly.

The college authority has been requested for preparation of an Annual Budget. As a part of Green Audit mechanism, all family members of the college were requested to observe a Pollution Free Deepawali this year. Vehicle survey and Registration, Air Testing, Water Testing, Energy Consuming Survey etc. are conducted smoothly. Now, preparation of the Green Audit Report is going on. Many proposals and schemes has been submitted by the IQAC to the College Authority. Some of them are as follows:

Regular Submission of Teacher's Appraisal Report, Open Book Examination in the Sessional Exams, MCQ Examination in the Sessional Examinations, Bifurcation of HS section as a separate campus, Appointment of Vice Principals for UG and PG, Warden for both Girls' and Boys' Hostel, Introduction of B. Voc. Programme, Installation of three Sanitary Napkin Burner in the toilets of Teachers' Common Room, Girls' Common Room and Girls' Hostel.
