**SAVE ENVIRONMENT, SAVE LIFE
GREEN AND CLEAN MOVEMENT OF DHSK COLLEGE,
DIBRUGARH
ACCREDITED BY NAAC 'A' GRADE**

"Dibrugarh Hanumanbax Surajmal Kanoi College (A grade by NAAC) cleans the college premises daily from 5 am. The college has been conducting this cleanliness campaign continuously for the last 8 years. This cleanliness campaign is very commendable and I would like to congratulate the DHSK College family for it." -

Dr. Ranoj Pegu
Education Minister, Assam
(Date: 29.06.2023)

With its glorious existence of 78 years DHSK College has already earned fame NAAC 'A' Grade College, Centre of Excellence awarded by UNO-RC, NER-2024 with the full cooperation of the President and the members of the Governing Body, faculty members, staff and students, Green Audited College, Clean College, Best Disciplined College and Clean College of Assam. DHSK College has received the 2nd Best Clean College award in the country from the Ministry of Drinking Water and Sanitation in Rashtriya Swachhwa Bharat Puraskaar-2017 and Swachhata Award from Dibrugarh District Administration in 2018 and consecutive three times Best Disciplined College Award in Dibrugarh University Youth Festival in 2020, 2022 and 2023 and 'Clean College of Assam' award from Dibrugarh Nagarik Mancha.

Honour of 'Clean College' by Nehru Yuva Kendra, Dibrugarh Branch felicitated the college for its contribution to the field of Swacchata and along with that the college has also received the ISO-9001: 2015 certificate for high quality education. Dibrugarh district administration organised Dibrugarh District Day on 2nd October 2022 after 51 years. On that occasion the Principal of DHS Kanoi College Dr. Sashi Kanta Saikia was felicitated by the District Commissioner Mr. Biswajit Pegu in the presence of Rameswar Teli, Minister of State in the Ministry of Petroleum and Natural Gas of India, distinguished litterateur Dr. Nagen Saikia, Prasanta Phukan, MLA, Dibrugarh LAC and other distinguished personalities for the upgradation of administrative, academic and technological sectors along with maintaining green and clean environment. To save the electricity as a part of green energy 40-kilowatt solar energy electricity is used. In addition to that 600-watt solar energy electricity is used in the frontside of the college. Work is in progress towards 100 % green energy in phased manner.

DHS Kanoi College is a college in which the nature comes to life in the 4.30 am early in the morning. The boarders of girls' and boys' hostels can be seen cleaning the campus in the early morning, which is a rare picture to be seen in the colleges of Assam. NCC is also equally involved in the cleanliness drive. This cleanliness movement started with the formation of Green Club at the college campus in June 2015 in the initiative of Principal Dr. S. K. Saikia. The process of cleanliness and green environment inside the college campus is so systematically brought forward that this movement of cleanliness is now rooted in the minds of all the students of DHS Kanoi College. Again the DHS Kanoi College achieved Best Cleanliness Award in the Year 2024 under Dibrugarh University Youth Festival was held at LTK College, Lakhimpur.

Green Club is now Life giving force i.e. *Sanjivani Sakti* for the college. The main purpose of Green club is - to clean the campus and all toilets of the campus, to maintain cleanliness everywhere, to plant varieties of trees inside the campus and maintain greenery, beautification of the campus by planting various flower plants, to protect the environment inside the campus by means of green audit, to educate each and every

visitor about the green environment and to organise lectures, talks on environment protection, to keep the campus clean by systematic cutting and trimming of trees. Specially along with other activities the members of green club feels very satisfied by cleaning the faculty and student toilets of the campus. Others probably would not be able to feel this joy and inner satisfaction. At this point it is necessary to mention the names of members of green club. The principal of the college Dr. Sashi Kanta Saikia himself reach college at 5.00 o'clock in the morning. The other members are - Debaru Bhuyan, Ranjit Bairagi, Anupam Dutta, Nitul Dutta, Krishna Kanta Pao, Chandra Handique Sanjay Baishya, Manoj Sharma Deepjyoti Phukan, Chandreswar Dutta, Hemanta Das, Purneswar Das, Jyoti Chetia, Putali Das, Khagen Phukan, Banjit Deka, Milinda Mann, Devilal Pradhan, Juri Pradhan, Dimpi Haloi, Tibrajyoti Gogoi, Saijoni Begum, Anil Singh, Railway official Anupam Mahanta and ex-student Dilip Singh. Under the initiative of green club along with other plants and trees a beautiful lemon garden is also being developed. Along with this, fish and duck farming is also being done. Chicken farming is also being done.

With the sole purpose of maintaining greenery and cleanliness within the college campus Green Club was formed in 2015 and in the past years this club is working towards the development and beautification of the campus. In this connection two books have already been published by the names of 'DHSK College Green Campus' and 'Handbook of Plant Species Diversity of DHSK College' (published by the department of botany, DHSK College). In the history of Assam Kanoi college is definitely setting an example by publishing such kind of books. This is probably the first time when Kanoi college is receiving awards for its activities towards Swachhata. The college is being able to receive the second-best award from the Ministry of Drinking Water and Sanitation by making a short film on swacchata by the NCC team of the college. In this regard the NCC members of the college definitely deserves big salute. NCC cadets are like flowers of the college garden. They have worked hard to achieve an award at national level, which was not an easy task. Along with the NCC cadets, all the students of the college are working hard to bring name and fame to the college. As a part of this effort, Nalbari Regional Students Union has felicitated the

DHSK College with Best Disciplined College and also the efforts of the students brought three times best disciplined college Award to DHSK College in Dibrugarh University Yuva Mahotsav. Actually this is the result of hard work, painstaking labour of a group of meritorious and visionary students along with perfect planning of the principal of the college Dr.Sashi Kanta Saikia.

Along with the members of the green club and the students associated with green club, the SOFEC; an association formed with the teachers of the college is also contributing their part towards the activities of Green Club. Again, the Dibrugarh District Administration must be thanked for encouraging the college in its efforts towards maintaining swacchata by awards and honours to the college. The Director of Secondary Education Dr Phanindra Jidung himself inspired the members of green club with his presence and a number of district magistrates and sub-divisional magistrates gave inspiration to the members of green club which will always be written in golden letters in the history of DHSK College. Green club is silently involved in this swacchata movement and it is supported by the members of DC boys' hostel and DHSK College Girls' Hostel. Since 5 am in the morning the members of green club and the boarders of two hostels are contributing towards cleanliness of the college; without their support it would have never been possible to maintain the green movement in the campus. Now everyone has started praising the swacchata activities of the college and this fragrance of good work is not confined to the nation only but has spread to the corners of the world. Green club is the Sanjivani Sakti behind this fame that has spread to the world.

There is no holidays, Sundays, corona, summer or winter for the members of green club and for the boarders of the hostels when it comes to the cleaning of the campus. Leaving aside all the holidays and vacations green club members reach the college campus at 5 am in the morning and start their daily routine of maintaining the greenery and cleanliness of the college campus. The main motto of the green club is "No Sunday, No holiday, No summer, No winter, No December, No January, No Hot, No Cold, No Rain, and No Corona." No one has any regrets, envy or anger for anyone,

only everyone is busy in doing their job. The green club has already completed more than 3579 days on April, 2024. Probably we would not be able to find such spirit anywhere in the entire country. Due to such great works a healthy environment of learning is being developed among the students of the college. Due to this huge awareness developed among the students regarding maintaining cleanliness, health & hygiene and environment they are now well aware of their responsibilities towards society along with doing their regular studies. We believe that only formal education is not enough to develop a person as a good human being, there are other things in life, knowledge of which is very necessary to build a good human being. It is a matter of great pride for the institution that the students learn here the lessons of cleanliness, health and environment along with their regular studies. Every year more than three thousand students pass out of this institution and able to spread this good work to different parts of the world. After being a part of the swacchata activities of the college, the students start working on their own in this field and they seem to be very active in social media to develop awareness on cleanliness, which proofs their positive attitude towards this issue.

Due to such positive efforts of Principal Dr. Sashi Kanta Saikia, the Dibrugarh District Employees Association honoured Dr. Saikia by the title 'Karmasurra', presented by then Chief Minister of Assam Sarbadnanda Sonowal, he also titled and honoured for Social activity 'Dibru Hitoishi', 'Dinabandhu', 'Manab Sewa Ratna Award', Hasan Sarif Ahmed Sammanoy Award, Best Principal Award, Seuj Ratna Award, Seuji Pragjyotish Sanman-2022, Academic Leadership Award-2023, Peace Ambassador Award, 'Asom Gaurav Bota-2023, Dr. B. R. Ambedkar National Sannman Padak-2023, 'Sayd Abdul Malik Memorial Award' on 23rd Dec. 2023, Bir Cilarai Award by Dibrugarh District Koch Rajbongshi Students Union, 24th Feb., 2024, North-East Leadership Award, 2024 by EIILM, Kolkata on 28th Feb., 2024, Baba Saheb Dr. Bhimrao Ramji Ambedkar Aaward by All Assam Scheduled Cast Organization on 29.04.2024. More than 120 organisations from in and outside of the country felicitated Dr. Saikia for actively involved various social activities. He was also awarded by Best Rural Journalist Award by Moranhat Press Club, 29.06.2002, Best Principal performance award,

(Health & Education Development Association. New Delhi) 15.06.2012.,
Best Educationist Award by Trihidoy Gusthi, Majuli, Education Excellency
Award by Confederation of Indian Universities, New Delhi, 21.01. 2019.
Principal Dr. Saikia was appointed as Brand Ambassador of Assam Swachh
Bharat Mission, Assam.

DHS Kanoi College has adopted five villages namely-Lahowal
Bebejia Gaon, Tengakhat Borbam, Borbari Gaon, Charaibahi Mishing Gaon,
Borbill Chawlkhowa Mishing Gaon, and Bogibeel Nepali Gaon. Hilodhari
Chandopathar Gaon is adopted by the NSS Unit of the college; and the
college is working towards maintaining greenery and cleanliness in these
villages. Already NSS unit has planted more than three hundred trees in
the Hilodhari Chandopathar village. Parallely to the silent movement of
Green Club, the other clubs and centres of the college such as Eco Club,
Yoga Club, environment cell etc are also contributing to this cleanliness
movement by creating mass awareness in and outside the campus
towards maintaining greenery, cleanliness and pollution free environment.
These clubs are playing important role in making this environment
movement more vibrant, dynamic and strong. Green Club has presented
'Dimbeswar Chaliha Memorial Green Club Award' to 'Orchid Man of Assam'
Khyanjit Gogoi and prominent nature lover Gautam Bordoloi. A
Memorandum of Understanding has been signed with the Orchid Society
of Eastern Himalayas for the conservation of orchids in the college campus.

Let us join hands together to spread this unique movement of love
for nature, green environment, awarness for health & hygiene and
environment safety from the campus of DHSK College to different parts
of the world.

**(Published and distributed by the Green Club of DHSK
College, Dibrugarh (30th April, 2024)**
